

LENNOX

NATIONAL ACCOUNTS

RECYCLING SOLUTIONS

FIVE SIMPLE STEPS TO SUSTAINABILITY:

STEP 1: DELIVERY

Your new unit will be delivered when you need it.

STEP 2: INSTALL

Lennox National Accounts will install new equipment, and haul away your old equipment.

STEP 3: RETURN

Old units are inspected, logged and assigned a recycling priority.

STEP 4: SALVAGE

Equipment is dismantled by trained specialists and separated into categories. Refrigerant and oil are reclaimed and disposed of according to EPA guidelines.

STEP 5: RECYCLE

Reusable materials are sent for processing. Non-reclaimable materials are disposed of according to EPA guidelines.

TOGETHER WE CAN MAKE AN IMPACT:

The typical Lennox National Accounts customer replaces, on average, 215 rooftop units per year.* Recycling these units is the equivalent energy avoidance of:

AVERTING 74.7

METRIC TONS OF CO₂

GREENHOUSE GAS EMISSIONS FROM 15.6 CARS FOR 1 YEAR

CARBON SEQUESTERED BY 1,916 TREE SEEDLINGS GROWN FOR 10 YEARS

POWERING 9.5 AVERAGE HOMES FOR 1 YEAR

*Numbers are based on typical replacement of 215 rooftop units per year. Actual figures may vary.
