Lennox Debuts T-Class™ 3 to 6-ton Rooftop Units

DALLAS, TX – January 1, 2006 – T-Class™ rooftop units from Lennox are now available in 3- to 6-ton capacities, allowing for increased applications. These units are backed by extensive testing and impressive warranties and provide rugged durability and reliability. Quality components and stringent design requirements provide true performance and help create a comfortable indoor environment for commercial buildings.

Standard efficiency models featuring 13.00 SEER efficiencies meet NAECA regulations in the United States and the 2006 Canadian efficiency regulations. Base efficiency models meet ASHRAE 90.1-2001.

Gas/electric, electric/electric and heat pump models provide a variety of choices to meet the needs of many different commercial buildings. Optional electric heat is available for both electric/electric and heat pump units.

The new 3-6 ton models also offer unique features and benefits.

- Supply fan options to meet most customer needs include; direct-drive in 3-5 ton units or belt- drive in 3-6 ton units. Low, standard, and high static packages are also available on the belt drive models.
- Hinged doors offer ease of serviceability and maintenance.
- Reversible plastic drain pan eases installation and is 100% draining.

All T-Class rooftop units have several additional benefits and features.

- Common service components that are easily accessible reduce repair parts and increase service employee's productivity.
- A wide range of pre-configured units are stocked throughout North America, providing fast and dependable delivery.
- Field-installed accessories offer easy and fast installation.

“We are thrilled about the expansion of our T-Class line,” says John Whinery, director of commercial marketing for Lennox International Worldwide Heating and Cooling. “Now, our customers have an additional product line in models from 3 to 25-tons to meet their commercial comfort needs.”

To learn more about Lennox' new line of T-Class 3 to 6-ton commercial air conditioners, contact a Lennox field sales representative, call 1-800-9-LENNOX or visit www.lennox.com.
