Expanded T-Class™ Rooftop Unit Line Gives Businesses More Application Options

DALLAS, TX — June 28, 2007 — Lennox Industries Inc. has expanded its popular line of T-Class™ rooftop units to include 2-ton and 2.5-ton units. Known for rugged durability and reliability, T-Class rooftop units feature quality components and meet stringent design requirements to provide lasting comfort for commercial buildings.

The 2-ton and 2.5-ton units are available in TG gas/electric, TC electric/electric and TH heat pump units. Electric heat is available in a 7.5 kW (208/203V-1ph-60Hz) model and a new 10 kW (208/230V-1ph-60Hz) version.

The new T-Class units offer:

- Truly reliable performance and a choice of energy-efficiency levels to provide comfort in a wide range of applications
- Optional hinged access panels with quarter-turn latches that allow easy access to the economizer, filters, compressor, controls, heating and supply fan areas
- Common service components to reduce parts needs and help increase productivity
- A reversible and removable plastic drain pan for easy installation and maintenance
- Many field-installed accessories for fast, easy installation
- Extensive testing and impressive warranties for peace of mind

Preconfigured 2-ton and 2.5-ton units are available at distribution centers across North America for fast, dependable delivery. For additional information on the new T-Class rooftop units, contact Lennox at 1-800-9-LENNOX or visit www.lennox.com.
